PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building scalable full-stack web applications using MongoDB, Express.js, React.js and Node.js. Experienced in developing RESTful APIs, JWT authentication, Redux Toolkit state management, and integrating Stripe, Cloudinary, Firebase, Supabase and Socket.io. Passionate about writing clean, maintainable code and solving real-world problems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, HTML5, CSS3

Frontend: React.js, Redux Toolkit, React Router DOM, Tailwind CSS, Bootstrap, Axios

Backend: Node.js, Express.js

Database: MongoDB, Mongoose

Authentication & Security: JWT, bcrypt.js

Cloud & Third-Party Services: Cloudinary, Firebase Authentication, Supabase, Stripe, Socket.io, Multer

Developer Tools: Git, GitHub, Postman, VS Code, Vercel

Core Concepts: RESTful APIs, MVC Architecture, CRUD Operations, Responsive Web Design

PROJECTS

Multi-Vendor E-Commerce Platform GitHub | Live Demo

- Built a full-stack multi-vendor e-commerce platform using the MERN stack with dedicated buyer and seller dashboards.
- Implemented JWT authentication, role-based authorization, profile management and protected REST APIs.
- Integrated shopping cart, wishlist, checkout, Stripe payments, order tracking and seller order management.
- Developed real-time buyer-seller messaging using Socket.io and product review/rating functionality.
- Integrated Cloudinary and Multer for image uploads while managing application state with Redux Toolkit.

Real Estate Marketplace GitHub | Live Demo

- Developed a full-stack real estate marketplace enabling users to list, browse, buy and sell properties using a single account.
- Implemented Firebase Authentication with Google Sign-In for secure user registration and login.
- Built advanced property search and filtering based on rent/sale, price, bedrooms, parking and furnished status.
- Integrated Supabase for media storage and owner messaging functionality for property inquiries.
- Designed scalable RESTful APIs with Express.js and MongoDB while managing frontend state using Redux Toolkit.

EDUCATION

University of Education, Lahore (Faisalabad Campus)

Bachelor of Science in Computer Science (BSCS) | CGPA: 3.81/4.00

Faisalabad, Pakistan

Sep. 2024 – May 2028 (Expected)

ACHIEVEMENTS

- Solved 120+ coding problems on LeetCode, strengthening problem-solving and algorithmic skills.
- Maintaining a CGPA of 3.81/4.00 in the BS Computer Science program.
