Professional Summary

Computer Science undergraduate with hands-on experience building full-stack web applications using JavaScript, React, Node.js, Express.js, and MongoDB. Experienced in developing REST APIs, authentication and authorization flows, payment integrations, and real-time application features. Also experienced in React Native mobile app development. Interested in software engineering internships, backend development, and building reliable, maintainable software.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C++, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, React Router DOM, Tailwind CSS, Bootstrap, Axios
Mobile: React Native, Expo, Expo Router
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, Mongoose, Firebase, Supabase, Appwrite
Authentication & Security: JWT, bcrypt.js, Firebase Authentication
Integrations: Stripe, Cloudinary, Socket.IO, Multer
Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Docker

Projects

Learnix – E-Learning Platform GitHub | Live Demo
- Developed a full-stack e-learning platform with dedicated application workflows for users and administrators.
- Implemented authentication, protected routes, and role-based access controls.
- Built learning platform functionality and integrated backend APIs, database operations, and application state management.

Multi-Vendor E-Commerce Platform GitHub | Live Demo
- Built a full-stack marketplace using the MERN stack with separate buyer and seller dashboards.
- Implemented JWT authentication, role-based authorization, protected REST APIs, and profile management.
- Integrated shopping cart, wishlist, checkout, Stripe payments, order tracking, and seller order management.
- Developed real-time buyer-seller messaging using Socket.IO and product review and rating functionality.

Real Estate Marketplace GitHub | Live Demo
- Developed a full-stack real estate marketplace for listing, browsing, and managing property listings.
- Implemented Firebase Authentication with Google Sign-In and advanced property search and filtering.
- Integrated Supabase for media storage and owner messaging for property inquiries.
- Built REST APIs using Express.js and MongoDB, with Redux Toolkit for frontend state management.

Expense Tracker – React Native GitHub
- Developed a mobile expense-tracking application using React Native and Expo.
- Organized the application using Expo Router and implemented mobile app functionality and navigation.

Fellowship & Professional Development

DevWeekends
MERN Stack Fellowship
- Completed a fellowship focused on MERN stack development and practical full-stack engineering.
- Earned Bronze and Silver certificates during the fellowship.

Education

University of Education, Lahore – Faisalabad Campus Faisalabad, Pakistan
Bachelor of Science in Computer Science (BSCS) | CGPA: 3.81/4.00 *Sep. 2024 – May 2028 (Expected)*

Achievements

- Solved 120+ coding problems on LeetCode, strengthening problem-solving and algorithmic skills.
- Maintaining a CGPA of 3.81/4.00 in the BS Computer Science program.
